Here is a true herd sire prospect. Lot 1's sire was born in 2005 and I believe this guy is one of the most powerful sons to date. Red Dawg has sired the Lot 1 bull four out of the last 5 sales and the one sale where he didn't sire Lot 1, he did sire Lot 2. He is proven to be a muscle sire, who adds length, style, and eye appeal. Check out this guys birth to weaning spread. His dam is a top Rambo 502 grand daughter who has a 105 MPPA, who is made right and has a real nice look to her, while having good feet and a nice udder. This guy is the real deal!

Here is an ideal type bull. He has the middle, muscle, length, and mass we all demand in our bulls, along with great eye appeal. We really like this guy and am sure you will as well. This guy also has a huge birth to weaning spread along with having a great dam who has a 106 MPPA. When you look at his pedigree, you will see Addiction and Wide Spread. Both of these have top daughters in our herd, and they were both used on heifers here. This bull has a lot going for him.

OK, here is the first of many Vin Diesels in the sale. We are proud to say that we raised Vin Diesel. His sons and daughters are awesome! This big boy is stacked with greatness as his dam has one of the highest MPPA 's in our herd with 110! 4 generations back you will find O23. She is a past donor cow who now has sons in both Sandy Willow Red Angus and Pieper Red Angus, plus we kept a son to use on our cows as well. This is a very strong cow line. 0607 is a good looking bull with a lot of muscle and length with great eye appeal. The daughters out of Lot 3 will be top cows, while the bull calves will be very powerful and will really push down the scales at weaning time.

Here is another Red Dawg son who will draw a lot of attention sale day! First check out his weaning weight! If that don't impress you, then look at his dams MPPA of 107. Now look at his photo. He is a powerful made bull with a lot of length and muscle. His feet are excellent, as is his dam udder. You will like Idol Dawg. This guy is a herdsire prospect!!!

These weaning weights are flat out impressive! This guy came out the right size and exploded while he was on his dam. This guys dam is a top Red Dawg daughter who is slowly moving to the top of the herd. This guy is her second calf, while her first one was used as a yearling by us, and then sold last spring to Dan and Tara Hooper from Nebraska as one of the top sellers of the sale. They just love him as he is extremely easy keeping! She now has a 108 MPPA and is getting higher every year. I predict her to be in our donor pen in a couple years. We thought long and hard about keeping him, but decided to keep an interest instead, as we will probably AI to him. Check out the EPDs on this guy. He will do you a lot of good!

OK Boys, here he is. This may be the best carcass scanned Red Dawg son to date. He has a marbling ratio of 115 and a rib eye ratio of 117! It doesn't happen very often where everything comes together like this. Now take a look at his weaning ratio and weights. He weaned off at nearly 800 lbs with a 110 ratio. His dam is a top Addiction daughter out of the great LMG Dynette 902 cow, and has a 104 MPPA! 0758 is a very long made bull, and was the heaviest bull coming off grass this fall. Come sale day he will be weighing 1600+ lbs and isn't very tall, just long, deep, and thick. So, if you are wanting a powerful Red Dawg son that has a load of maternal bred into him, look no further than Lot 22.

Here is one of the best Wide Spread sons we have ever raised. He has the dark color we love, very classy made, long bodied, and full of eye appeal. His dam comes from a super cow family and she is a great cow, as she has a 106 MPPA! 0718 has outstanding EPDs and individual performance. His birth to weaning spread is very impressive. When you study his pedigree, you will find top bulls such as Heavenly, Barney, Jr 107, King Rob, and Hobo 1961. The pedigree is proven, the cow line is great, the bull is outstanding, and the carcass is near perfection. Take a look at his picture, and then come to the sale and take a look at him. You will love him!

This dark colored bull is a very powerful looking bull as he is extremely deep and thick, real long, and made the way we want them made. He is a little older than the others, as we found and weaned him a little later than the other spring bulls last year, so he wintered with the May/June born bulls. He is a Wide Spread son and goes back to Rambo and Hi Ho on the maternal side. He is an impressive individual, come check him out.

Here is a double bred Barney bull who is sired by Wide Spread. He goes back to a couple great cows like Dynette 902 and Gem H8058. She is the reason we purchased the bull Gemstone a few years back from Bullis Creek. His daughters are turning into real good cows, and this guy proves it. The dam to 0716 has a 105 MPPA. If I was the buyer of this bull, I wouldn't let a single daughter of his slip out of my fingers, as they will be awesome!

OK, the dam to this guy is an elite embryo daughter of the great LMG Dynette 902 cow. Her sire is the powerful LCC Vaquero, and she has a 104 MPPA while 902 also has a 104 MPPA. This is our strongest cow family and it is easy to see why here. Now take a look at the sire, it is the good Wide Spread bull, who is also a son of the great LMG Dynette 902, which makes Lot 37 double bred Dynette 902. I always called her our best cow ever, until her daughter Dynette 3041 came along. This boy is powerful, long, deep, easy keeping, eye appealing, impressive looking, and will make you some super daughters and feeder calves. You need to take a good look here.

Boy, you got to love these Wide Spread sons, as they are all alike, dark, deep, thick, sound, and good looking. This guy has it all; as he was born the right size, weaned off heavy, grew well on grass, and stayed ahead of his class all the way. Take a look at his photo, he is very smooth made and well built. His dam is another top embryo daughter of the great Dynette 902 who is sired by Advance A709. Do you see a pattern? The Dynette daughters all have top sons in the sale. This pedigree works great, and this one is double bred Dynette. Come get this guy to make yourself some great cows.
