**WW:** 696 lbs.

The first Diamond Back son to sell of the day, and man is he a long made, dark cherry, deep bodied bull. Take a look at his pedigree and you will see that he stems back to some of the great Black Angus blood lines of all time, like the Miss Wix cow line, Traveler 6807, and Nbar Emulation EXT. These are all known for outstanding daughters, and you cross that with Diamond Back's pedigree of Barney, EBV, and Feddes Blockanna and it is no wonder this guy is good. This is an exciting pedigree, and an even more exciting bull in person. Come get him.

Lot 113 might be the most impressive yearling bull in the sale. He is good and he knows it. He really resembles his grandsire Buf Crk Barney. He has a lot of muscle, extra length, good depth, really stylish, and has the softness to him that makes easy keeping daughters. His dam is a top Feddes cow who has a 105 MPPA. This bull is exciting to me, as I know what he is capable of doing. Come and check him out.

Man is this a good set of Diamond Back sons! 1502 is a powerful, impressive son that goes back to the famous Lakina cow line. His dam has a 101 MPPA while his grand dam has a 102 MPPA. This is a very good cow line and the results prove it. This guy is ahead of his class in nearly all categories. He is the kind of bull that will cover a lot of cows and improve what you have in a hurry. I really like this guy, and I am pretty sure most of you will too.

Here are a couple very good, very classy, and very exciting full brothers. First they are sons of the powerful Vin Diesel bull who is a son of the muscle king, Red Dawg. Vin Diesel's dam is a real good donor cow for us and Smith Angus Farms of NE. She, her dam, and her daughter have all been flushed. This is a very strong cow family. Next, these two are sons of the great LMG Miss Dynette 3041 cow. This is a no miss type cow. She has a 113 MPPA and has excellent shape, is very sound on her feet and legs, has a super udder, and is always fat. Her dam is the famous LMG Dynette 902 cow that we flushed for several years until she got hurt and had to be put down. Check out the EPDs on these guys. If you need to add a little power to your cow herd, here is your chance. Come get one or both. Full brothers as lots 127, 128, 136 & 187.

Coming off grass last fall, this guy was one of the more impressive bulls weaned and he hasn't looked back since. He is a big stout bull with a lot of length and muscle. All the Vin Diesels are the same, very eye appealing and full of muscle. We purchased this cow from Finch Red Angus in IA a couple years back, as we thought she was one of the better cows there, plus she goes back to their foundation cow, Ankony Flora. She has a 111 MPPA. A very level udder, and is extremely easy keeping.

WOW!!! Take a look at this guys performance! Ya gotta love it when they can come small and grow like a weed and wean off over 800 lbs. This guy has all the EPDs one could want, in fact, you couldn't really make them any better. He has a 91 birth ratio and a 122 weaning ratio. By the numbers, this guy is everyone's dream of a herd sire. His pedigree is just as impressive, as his dam goes back to Cherokee Canyon and EXT, while she is part of the great LCC Olive cow family. Now let's take a look at the bull. He is a real long made bull, with a wide base to him, and a long extended neck. He is a classy made bull and will do someone a lot of good. Don't forget who his sire is, the great female maker, Norseman King. This is a no brainer, come get him!

**WW:** 710 lbs.

OK, let's talk about a top cow family. This guy is out of the real good donor cow LMG Roxie 4110, we have flushed her quite a bit. She is a big bodied, very easy fleshing cow who knows how to produce a top calf. Her dam, LMG Roxie 1080, is the dam to LMG Gills Vin Diesel 7611, you have seen several sons of his throughout this catalog, and then the great grand dam is LMG Roxie 818. All three of these cows have been in the flush center, in fact, once they were all there at the same time. We believe in finding a top cow line, flush them for their embryos and then use their sons and daughters in our program to improve what we have. The sire is the great Sakic who is worldly known. I really like Sakic's dam as well. The daughters out of this bull will be amazing!

Here is a super deep made bull with a lot of muscle to go with it. This is the type of bull that doesn't require much feed to stay in great condition. He has a lot of power, but yet has that maternal look to him, and it is no wonder as it is the same cow family that OHRR Dakota Rambler 75R came out of. He is a bull we used hard for a few years before he got injured. We purchased him to make some top daughters, and he did just that. This cow family is exciting. You cross that with the power that Diamond Back has and fun things will happen on your next calf crop.

Here is a very powerful, big bodied bull who has all the right parts. He will cover alot of cows without any trouble. We do recommend him as terminal use only, as he is a carrier of Osteopetrosis. But if you market all your calves and buy females back, this guy will work just fine for you. For a while this winter, he was the highest gaining bull, as he was gaining over 5 lbs a day. His feeder steers will be in demand with that type of gain ability.

**BW:** 89 lbs.  
**WW:** 686 lbs.

This stylish calf is made right and is loaded with muscle.

**BW:** ET  
**WW:** 737 lbs.

This powerful bull calf is a son of the famous Hi-capacity bull that sold for \$51,000 as a 5 year old. His sons and daughters have topped sales all across North America. This guy's dam is a proven donor cow and came out of one top Red Angus programs in the south eastern part of the U.S. This guy is a big bodied, long made bull that will add pounds to your next calf crop.

**BW:** ET

**WW:** 688 lbs.

This guy is another son of the great LMG Dynette 3041 cow. The sire is the real good Landslide bull from OHR Red Angus. This guy is out of a real good cow. A bull's daughters, will always resemble the bulls dam, and this is why we won't use a bull unless we feel his dam is a top cow. Take a look at the photo of Landslide's dam. She is a calf raising machine, sound, easy fleshing, and has a good udder. 1571's daughters will be great cows.

**WW:** 654 lbs.

Here is a really well made, extremely deep bodied bull who has a lot of eye appeal. He is an embryo calf and has a little more age, than the rest of the calves in the pen, but we didn't think he was quite old enough to be wintered with the two-year olds, so he stayed with this group. His sire is the very impressive, deep made, World Angus Forum Champion Bull last year that was held up in Canada. His dam is a top daughter of King Rob and a daughter of the Famous, 120 MPPA Miss Forster Coppertop 591 cow that sold for \$50,000. This is a top notch bull and a great pedigree.

**BW:** ET  
**WW:** 748 lbs.

Lot 156 is another heavy weaned bull calf out of Hi-Capacity. These calves will really add some pounds to your next calf crop.

**BW:** ET  
**WW:** 708 lbs.

This is a big stout bull calf that we recommend be used as a terminal sire as he is a carrier of Osteoporosis. We recommend you read about Osteoporosis in the front of the catalog. Besides being a carrier, he is a real good bull, he is long made and powerful. He will cover a lot of country and breed a lot of cows. So if you don't keep any heifers, this guy will work just fine for you. In fact you will probably get him at a discount.

Gracen
