SALE ORDER

Cattle will sell in catalog order, but are subject to change on sale day.

INSPECTION OF BULLS AND HEIFERS

The bulls are available to be viewed at ranch headquarters anytime between now and sale.

LOT TAGS

Ear tag numbers on the sale cattle will correspond to the sale catalog.

HEALTH & VACCINATIONS

At Gill Red Angus we maintain a consistent mineral and vaccination program. From birth to weaning, our calves receive their necessary vaccinations and remain on vitamins and minerals to aid in maintaining health as they grow. These bulls have also been poured prior to pasture and receive an oral dewormer when coming home as well as being poured again for lice.

NO LOAD OUT AFTER DARK ON SALE DAY

SALE TERMS & CONDITIONS

Any terms and conditions not covered by the catalog will refer to the Standard Terms & Conditions set forth by the Red Angus Association of America.

GILL RED ANGUS GUARANTEE

All bulls that are in good breeding condition at the beginning of the first breeding season are guaranteed breeders. This does not include any injury. Any bull that settles one third or more of the healthy cows he services or passes a fertility test made by a competent veterinarian during the first six months after the sale date is considered a good breeder. All claims for adjustment or refund must be made within six months of sale date. All bulls returned must be in good and healthy condition. Any bulls given a fertility test within the first six months after the sale date will be at the buyer's expense. All bulls are guaranteed to be breeders, however, no guarantee is given that the semen collected from a bull will freeze.

INSURANCE

An injury and mortality insurance is available on all bulls. Insurance is available through Ray Trudeau of Martin-Trudeau Insurance - 605-770-5170

The Gill Red Angus Customer Marketing Program

"You Buy Our Bulls, We Will Bid on Your Calves"

Something that sets us apart from most of our competition is our Customer Service Program. Our slogan is "You buy our bulls and we will bid on your calves." This has really helped our customers on selling day. We have run replacement heifers up as much as \$15 per hundred weight! Add that up on a load of 525 lbs replacement heifers and that is an extra \$7500 in your pocket. Compare that to what is offered by other seed stock producers, how can you go wrong?

Here is how it works:

- ✓ First you must be a Gill Red Angus customer. At marketing time, contact Gill Red Angus with the marketing option you wish to pursue:
 - Complete Retained Ownership
 - Partial/Partnership Retained Ownership
 - Livestock Auction or Off-the-Farm Marketing - Sell 100% of your calves off-the-farm or at the stockyards and a Gill staff member will be there to place a bid on them for you.
 - Discounted semen available to all customers who want to AI.
 - Discounted vet supplies through DeTye Vet Supply, River Ag & Stockmans Supply.
- ✓ When possible, we will work with our customers to help form co-mingled loads of calves. Upon harvest, if possible, Gill Red Angus will prepare a report, complete with feed yard and harvest data, for your use.
- ✓ We are also available for consultations regarding breeding, replacement heifer procurement, and all marketing options. We will help you in any way we can to make your bottom dollar grow.

"You Buy Our Bulls, We Will Bid on Your Calves"

Hello Ranchers,

What a great time to be in the cattle industry! We are at a 60 year low for cow herd numbers nationwide while the global cow numbers are low as well. The U.S. is not retaining heifers yet so we should have a few years of outstanding calf prices. When this breaks loose, I think we will see prices we have never seen before! Time to cash in!!!

Brent and Bryan

The commercial heifers in the sale are fancy and fed for you to turn out and breed. We purchased them last fall from longtime customers Johnson/Strand. We have sorted them and took out anything we wouldn't want to breed. Oahe Vet palpated them to make sure they are all able to breed as well. With the rising prices and the drought breaking, these should be worth a lot of money come next fall!

The bulls have done great over the winter. Since the sale isn't until late April, we fed them on a slower ration until January 15. Then we picked it up a little to get them into sale shape so you can see their ability to perform. They have been fed to last for you.

We have spoken to both veterinarians and ranchers and the reports are the same. The herd bull semen testing hasn't gone well from all the cold weather this winter, so we recommend you test all your herd bulls before this sale and see where you are sitting. You might discover you need an extra bull or two.

If you can't make it sale day, the sale will be broadcast live for you to bid and buy online on www.dvauction.com. We always handle bids for customers or you can be on the phone as well. We will try to help you any way we can. Videos of the sale cattle will be on DVAuction about 10 days before the sale for you to study.

See ya at the sale! Please call if you have any questions!

GILL RED ANGUS DELIVERY

We will start delivering bulls directly after the sale. All of the heifers and cows will be shipped right after the sale. The trucking for the females will be at the buyer's expense.

We will continue to deliver bulls for free if you are from ND, SD, NE, and parts of MN, WY, and MT. (See map for details) We will deliver with both a semi and a stock trailer. If possible, we will deliver to your ranch, but it's not always possible, especially if we use our semi. So in those times, we ask that we meet you at "central points", like a sale barn.

For all other states, here are our delivery charges. We will charge \$150 per head for the first 450 miles, and for every hundred miles after that, it's an additional \$100 per head. Depending on the situation, we may ask you to meet us along the way. Also, if we have a trailer load of bulls going to the same area, the delivery charges will be adjusted less.

Commercial Open Replacement Heifers

We purchased this group of heifers last fall from our longtime customer, Johnson/ Strand at Shade Hill, S.D. with the intention of putting them in our spring bull sale. We have sorted these a couple times and we took out anything that we do not think would be replacement quality. They are very feminine, easy fleshing, long and deep bodied and will make an excellent set of cows. On March 17th, Oahe Vet will be palpating them to make sure they are open and able to breed, and we will weigh them that day as well. These girls should be weighing approximately 850 lbs by sale day. We fed them to grow out over the winter with a ration made by our nutritionist, Cattlecents Consulting. They will be ready to breed as soon as you get them home. With the markets rising, they will be a great investment.

Our Commitment

We know in order for us to be successful, our customers need to be successful as well. That's why we have committed ourselves to add value to your calf crop with feeder calf and heifer marketing. Ask about how we can help promote your Gill Red Angus sired calves to potential customers.

Our Dedication

We are dedicated to raising the highest quality bulls possible for both our customers and the feeders who purchase our customer's calves every year. In order for us to supply you with the best bulls possible, we will only use the absolute best bulls out of the very best cows. We also take the bottom 20% of our cowherd and sell them every December. We raise the bulls with the goal of developing them to their max potential, while keeping them sound and fertile. Our cows must be easy fleshing, sound made, fertile, and have real good udders on them. No exceptions! In order for our customers to continue getting a premium for their heifer calves, the bulls you use need to come from the best genetics possible.

We purchased Homeland from Eagle Pass Ranch a couple years ago. We loved his type and look, while his dam is an outstanding donor cow for them as well. Homeland broke his foot the first breeding season and we never got much out of him. We did get him healed up and collected some semen on him this winter. We are hoping we can get a couple more crops out of him. He is exactly what the breed needs!
