This is the kind of bull it takes years of breeding to develop. He is as cool of a bull as we have ever raised. This guy is as classy as they come, extremely long made, and maybe the thickest bull we have ever raised as well. He is a stout made, exciting bull. He is definitely a herd bull prospect, and what makes it even better is, he knows it. He struts around the pen as if he is saying "look at me". His numbers are very good, and his actual weights are outstanding! He has a super mother who is out of Accelerator, goes back to Addiction, and is from the great Lass cow line. She is a powerful made cow with a great udder under her and walks on excellent feet. This is the kind you hunt for as a registered breeder! His dam has a 105 MPPA while his maternal grand dam has a 109 MPPA while his maternal great grand dam has a 106 MPPA. The genetics and quality runs deep here. Come check him out!!! **Pen: 300**

We have 3 Outrider sons in the sale and they are all top notch. This guy is probably the longest bull in the sale as well as on of the thickest. He has an extended neck and has a real herd bull look to him. Outrider is a son of Basin Trendsetter, the top New Trend son that Bieber's purchased several years back. This guy is out of a real good cow who has a 101 MPPA and is maternal brother to last year's Lot 121 who sold for \$7250. 2009 has ideal weights of 68 lbs at birth and 738 lbs at weaning. This guy is impressive; you need to come see for yourself.

Here is the another Outrider bull calf and I am not sure which one I like best. This guy has a bit more depth of body, but isn't quite as long as Lot 106. He is real impressive as well. Check out his weights of 78 lbs at birth and 721 lbs at weaning! His dam goes back to the famous Mitty In Focus bull who is one of the most heavily used Black Angus calving ease bulls of all time. She also has 101 MPPA. **Pen: 300**

This guy is a true herd bull prospect! If you want a bull who will add middle, mass, and muscle, then this is definitely the bull for you. He is a powerhouse and you spot him as soon as you walk into the pen, a true stud. He is the reason we purchased Grand Statement. If his daughters grow up having the same body type as this guy, things will get interesting. There seems to be a search throughout the breed for a bull who will give you the growth the feeder's demand, the carcass the packers want, and yet the efficiency the ranchers need. I truly believe this guy covers all three bases. His dam is an awesome cow who we decided to flush and this guy along with several other brothers and sisters who are selling here are the results. She is a big bodied, soggy made cow who never misses. She has a great udder, and is very sound, and is always in the body condition we all want to see a cow in. Take a look at this guy, look him up on the video, and then come see him for yourself.

OK, if I could draw a cow with the body shape I want all our cows to look like, this guy's dam would be my model. She is a real deep sided cow who has a super udder, extra length, and very feminine. Take a look at this photo of 2044 and his dam. They are as impressive in person as they are in the photo. The sire to 2044 is the good No Doubt bull. No Doubt is out of our top cow, LMG Miss Dynette 3041 and the superstar Indeed. With all the greats in this pedigree, only one can imagine how good the daughters will be out of him. He is a bit more powerful than No Doubt himself, stands wide, is thick and has that herd sire look to him. **Pen: 300**

Here is one of the heaviest bull calves we weaned out of the spring bulls this year. He is a standout. The exciting thing is his grand dam, LMG Miss Lydia 5073 raised the heaviest calf we have ever weaned this year and it was a heifer calf. She was born on Feb. 29 and was weaned at 220 days of age and she weighed 892 lbs actual weight, and that was without anything but milk, grass, salt, and mineral and sells as lot H11. The performance in this cow family is unreal, and even better, these cows are both moderate framed, but big bodied, long made, and thick, which is how we try to make our cow herd to look. You better come get him if you want performance and maternal in the same package.

This is a top bull and we thought pretty hard about keeping him. We really like his dam and his pedigree. His sire is Grand Statement, the bull we purchased with Lucht Red Angus and ABS Global. He really adds depth of body to his calves and puts a good hip on them as well. His dam and grand dam are the top cows at CT Red Angus. 2058's dam is a Power Surge daughter, who was claimed to be the best Rambo 502 son ever. We sold a few sons by him and they were good. In fact one went to Sandy Willow Red Angus and they used him real hard for several years. His great grand dam is the real good Velma 840 cow who we really liked, and we sold her last fall as a 13 year old cow. This guy has a real nice shape to him, great depth of rib and muscle and real smooth made. Herd bull prospect. **Pen: 301**

Dam to Lot 127

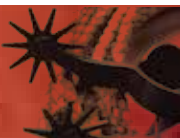

BW: N/A
WW: 674 lbs.

For the second year in a row, we have a ½ blood Charlais, ½ blood Red Angus. As the story was told in last year's catalog, when we first purchased Red Dawg, we took him to get semen collected on him. The company that did the collection was also collecting Thomas's Fire Water (past Charlais National Champion) the same time. They must have had a rookie in there doing the work, as they mistakenly poured the 2 bulls together and never told anyone it happened. All of a sudden these buckskin calves started popping up around the country. This boy came to us as we flushed LMG Miss Lass 5014 to Red Dawg and this guy was the result. It isn't what we really wanted, but he is a super bull calf, just like last years. Evidently Firewater is a great bull, as he has had 2 sons here and they have both been outstanding. Last year's bull sold really well, and we had more calls and bids on him than any other bull in the sale. If I remember correct, we had 3 guys on the phone, a few in the stands and a couple online all bidding on him. He ended up going just a few miles to the east of us to a young first time customer. I would bet this deep bodied, thick hog will get the same respect as his brother last year.

Lots of power in this Vin Diesel son who weaned off at nearly 700 lbs. His dam is a maternal sister to LMG Gills Miles Ahead.

Pen: 301

BW: 85 lbs.
WW: 705 lbs.
Retaining ¼ semen interest

If we were needing a Vin Diesel son, this would be our guy. He is as classy as they come, real thick made, and as sound as we can make them. In other words, he is good and is a herd sire prospect. There are some calves that just stick out when you walk into a pen, and this guy is one of those guys. We purchased his grand dam a couple years ago from the Alm Dispersal sale. She was our pick of the sale and she has really worked well here. Come check him out! **Pen: 204**

Here is one of my absolutely most favorite bulls in the sale. He is made nearly perfect. Check out the photo of him on grass this summer, then take a look at him at 9 ½ months old. His looks haven't hardly changed. He is the deepest and most correct made bull in the sale. I can't find a hole in him. Some of you might find him a little to moderate framed, but then again, maybe not as he is so thick, square made, and deep, that he might be just perfect for you. His dam is a real good Heavens Door daughter who goes back to Rattler 908. She is also a deep made, good uddered cow with great feet and legs. This is a true herd sire prospect and wherever he ends up, I know he will be a favorite in their pasture. Oh ya, take a look at his own weights, another reason why he is so impressive. Come get him! **Pen: 204**

SuperiorClickToBid.com

With SuperiorClickToBid.com, you can participate in an online auction in just three easy steps:

STEP ONE: BECOME A MEMBER OF THE SITE.

Membership is free. Once you become a site member, you will be given a username and password. This will allow you to sign up for the auctions that you want to participate in.

STEP TWO: REGISTER FOR AN AUCTION

Once you have your username and password, simply find an auction you're interested in, and click on the "register" button. Your registration request will be sent to Superior, and once approved, you will be notified that you can now bid live for that auction.

STEP THREE: BID WITH CONFIDENCE!

On sale day, simply login, browse to the auction that you desire to participate in, and click the "Bid Live" button. Simply follow along with the auction, and when the price that you want to bid appears, click on the bid button. You will be told if you are the current high bidder, and if you won the lot.

OTHER WAYS TO PARTICIPATE:

You can also call into Superior Livestock at 800-422-2117 and bid over the phone live during the auction. There may be other auctions happening the same time that Superior is hosting, so make sure you tell them the Gill Red Angus bull sale. You will need to call in before the sale to get a Gill Red Angus buyer number.

If you are unable to participate live, you are encouraged to leave an absentee bid. Simply browse to the auction and the lot that you are interested in, enter your absentee bid in the box, and click submit. Your bid will be executed by Superior at the appropriate time on your behalf.

Not many of the good Mulberry sons are left in the country, as semen isn't sold from the owner in the U.S. any more. The Mulberry bull really stamps his style and eye appeal in his offspring. Mulberry is still breeding cows and is 8 years old. The dam is the great LMG Roxie 4110 cow who we have flushed many times. She is as well of a made cow as you will find. She is big bodied, sound, great uddered and a calf raising machine. She is a daughter of the great LMG Roxie 1080 and a maternal sister to Vin Diesel. This line really works and so will this guy. **Pen: 204**

This guy is doing so well, especially from what he came from. His dam dropped a hip last winter and we kept her around all summer and finally sold her after we weaned this guy off her this fall. She looked pretty tough all summer and pretty much stayed by the water, but that didn't really slow down her production, as this guy weaned off at nearly 700 lbs! I was pretty amazed at how well he did this summer. He is a good No Doubt son and she is a daughter of Monu 4x and is part of the good Lass cow line. **Pen: 204**

The dam to this guy is one of my favorite cows on the ranch. She is a Dynette 902, daughter of Monu 4X. She is very classy and deep bodied, and possibly the thickest cow on the here. She is what I would like all my cows to look like, plus her udder is near perfect. He would have been heavier at weaning, but he had C & D over eating as a baby, which set him back some, but once he got over it, he really took off. 2039 is moderate framed, long made, real impressive, and super thick. If you don't mind them a bit more moderate framed, then this is your guy. **Pen: 204**

BW: 89 lbs.
WW: 710 lbs.

If you want some half-brothers, this is the sale to get them at, as we have a lot of the Vin Diesel sons selling, and look, another 700+ lbs weaning weight bull calf. This guy is powerful! **Pen: 204**
